

## Art students' Summer Assignment:

Find an article that is related to the art course (Foundations of Art, Photography and Digital Processes, 2-D Design, or 3-D Design) that you are registered for when you return in August. Magazines (most are available in as websites as well as hard copies that you may receive in your home or sign out from a local library) and art related websites that will offer appropriate articles are listed below. Read one related article and write a short summary of it on your own paper.

Answer the following questions in your summary:

1. What is the main point of the article?
2. What did you find most interesting about the article?
3. How do think the information gained from the article can be used in your upcoming art experience?

Check out these magazines (most of which have articles also available on line):

1. Smithsonian Magazine
2. National Geographic
3. Art or Style sections of local newspapers
4. ARTNews (all types of art)
5. American Craft (ceramics, jewelry, 2-D and 3-D crafts)
6. Popular Photography (Photo/digital)
7. Ceramics Monthly (3-D Design, ceramics, and sculpture)
8. Art in America (primarily 2-D design)
9. Artist Magazine (primarily 2-D design)
10. Aperture Magazine (Photo/digital)
11. Claytimes

Check out these art related websites:

1. AACC Library
